

INCI

Sodium Cocoamphoacetate

Applications

- Personal care
- Home care
- Industrial & institutional cleaning

Characteristics

- Amphoteric surfactant
- Yellowish liquid
- Preservative free
- Sodium chloride: max. 10.0%

Specifications

pH (10% in water) EOC-method nr 3007	8.5 – 9.5
Total solids (%) EOC-method nr 2091	38.0 – 41.0
Colour (Gardner) EOC-method nr 89001	Max. 5

Storage / Shelf life

The product has a shelf life of 1 year when stored in its original closed packaging between 0°C and 30°C.

Storage temperatures below 15°C can cause cloudiness, which does not indicate a loss of quality. A clear solution can be obtained by slowly heating the material while stirring. Overheating should be avoided.

During transport, temperatures may decrease to -5°C for a short period. Storage at temperatures above 30°C can cause an increase in viscosity and colour.

Health & Safety

See safety datasheet.

RSPO

This technical datasheet is also valid for the RSPO Mass Balance (MB) certified grade.
